## LSI Workbook Project Summary

Version 2008.03

**Note**

This workbook is intended as a tool to be used to record and analyze CFIP-related expenses. Any reference made to 'LSI' within this tool does not imply an LSI-eligible status of any expense item or group of expense items. The LSI eligibility of expenses is only confirmed once all expenses have been reviewed at the completion of the CFIP project, and approval has been granted by the park superintendent.
